What’s Newer in Children’s Literature

Common Core State Standards for English Language Arts & Literacy

Students who meet the Standards readily undertake the close, attentive reading that is at the heart of understanding and enjoying complex works of literature. They habitually perform the critical reading necessary to pick carefully through the staggering amount of information available today in print and digitally. They actively seek the wide, deep, and thoughtful engagement with high quality literature and informational texts that builds knowledge, enlarges experiences, and broadens worldviews (page 3).

Classrooms that work provide:

- Huge amounts of balanced, comprehensive instruction
- A lot of reading and writing
- Integration of science & social studies with reading and writing
- Emphasis on high-level thinking skills
- Explicit teaching of skills and coaching on how to use them in reading and writing
- A wide variety of materials
- Strong levels of engagement and good classroom management
- A variety of formats for instruction

The Foundation

- Why we read and write
- Background knowledge and vocabulary
- Print Concepts
- Phonemic awareness
- Some concrete words
- Some letter names and sounds
- Desire to learn to read

Fun books for young children and adults alike:
